

"And so strength must come to the nation through education."
Plato

ePLATO is a pervasive, easy to use, service platform that can be used for eGovernment applications eg. eLearning, eHealth, Religious Institutions, Homeland Security and mass communications, which have the potential to change the way people work and communicate and to bridge the 'digital divide'.

BRIEF LAYOUT OF THE ePLATO CLIENT

Area 1 - The instructor
Video with live person to guide through the course. Can be amended or replaced by a virtual trainer. Can be done in any language.

Area 2 - Control buttons:
